MOLLOY COLLEGE
& THE REBECCA CENTER**

We believe in our shared mission to unleash the power of people to transform their communities and make the world a more inclusive place.

Backyard Players & Friends is an inclusive, arts-based community program, open to the public for participants age 14 and older. We work to give every person a space so that together we can share ideas and experience openness, joy and creativity. We believe that through inclusion there is diversity and strength. Our program seeks unity without uniformity and diversity without fragmentation.
